

Motorbike Radiator Stop Leak

DESCRIPTION

Motorbike Radiator Stop Leak is a dispersion for sealing leaks in coolant circuits. The product reliably seals hairline cracks and small leaks. Motorbike Radiator Stop Leak also can be used preventively when repair work has been carried out on the cooling system. The solids dispersion is stabilized in carrier fluid

PROPERTIES

- Permanently and reliably seals hairline cracks and small leaks
- Compatible with all commonly used cooling water refiners and antifreezes
- No harmful side effects
- Suitable for aluminum and plastic radiators
- Also suitable for preventive use

TECHNICAL DATA

Form : liquid
Color : off white with polyparkles
Density at 20°C : 1.07 g/cm³
Viscosity : at least 30 sec. (Ford cup 4 mm nozzle)
Solubility in water : mixable

APPLICATION

For sealing minor leaks in coolant systems with and without coolant filter. Also suitable for aluminium and plastic radiators.

INSTRUCTIONS

Shake container before use. With the engine running, pour the contents into the coolant at operating temperature and allow the engine to continue running for at least a further 10 minutes. Contents will treat up to 5 liters of coolant.

AVAILABLE PACK SIZE

Motorbike Radiator Stop Leak 125 ml Part no. 3043 D-GB-I-E-P

PI 00/02/14
