

Tapox 2-K

Epoxy coating

One of the most trusted product by industries and classic car enthusiast for rust treatments for over 38 years. FERTAN products have been bestselling rust removers, coatings and primers in Germany and several other European countries for several years now.

Specially engineered for application on variety of tanks like, fuel tanks made of aluminium or steel for vehicles, ships or water tanks.

Also widely used in the industry for coating concrete floor that are subjected to lot of wear.

The TAPOX 2-K Epoxy coating comes in a container of the size large enough to mix the TX-10 hardner. The TX-10 is of the same quantity required to harden the TAPOX.

-  Fuel resistant
-  Ethanol resistant
-  Temperature resistant up to 80°C
-  Suitable for all tank types (e.g. motorbike, car, boat, ship, fuel oil tank, industrial tank)
