

Wunderlich AMERICA

Supplemental instructions for Wunderlich Rear Protection Bars

Part numbers 8160126, 8160168 & 8160179

Remove the luggage rack. Two screws on each side, two screws under the passenger seat

.....two screws at the rear, accessible after removing the tail light. Remove the luggage rack.

Remove the three screws from the fairing panel, carefully bend the panel back to expose lower side panel attachment screw and remove that screw.

Remove the screw where the luggage rack was attached.
Remove the screw on the under side of the side panel.

Remove the screw located inside the tail section. Repeat for the other side.

Now that the rear side covers have been removed, please follow the instructions included with the protection bars. When the bars are installed, re-assemble in reverse order.
